MKS Instruments to Present at the Stifel Nicolaus Technology Conference

ANDOVER, Mass., Jan. 24, 2013 (GLOBE NEWSWIRE) -- MKS Instruments, Inc. (Nasdaq:MKSI), a global provider of technologies that enable advanced processes and improve productivity, announced today that Leo Berlinghieri, CEO & President will present at the Stifel Nicolaus Technology Conference at the Ritz-Carlton Hotel in San Francisco on Wednesday, February 6, 2013 at 9:10 a.m. (Pacific Time). The presentation will be webcast live and made available in the Investor Relations section of the company's website at www.mksinst.com.

About MKS Instruments

MKS Instruments, Inc. is a global provider of instruments, subsystems and process control solutions that measure, control, power, monitor and analyze critical parameters of advanced manufacturing processes to improve process performance and productivity. Our products are derived from our core competencies in pressure measurement and control, materials delivery, gas composition analysis, control and information technology, power and reactive gas generation, and vacuum technology. Our primary served markets are manufacturers of capital equipment for semiconductor devices, and for other thin film applications including flat panel displays, solar cells, light emitting diodes, data storage media, and other advanced coatings. We also leverage our technology in other markets with advanced manufacturing applications including medical equipment, pharmaceutical manufacturing, energy generation, and environmental monitoring.
