## **MKS Instruments Announces Participation in 5th Annual CEO Investor Summit**

### **Accredited Investor and Publishing Research Analyst Event to be Held Concurrently With SEMICON West and Intersolar 2013 in San Francisco**

ANDOVER, Mass., June 18, 2013 (GLOBE NEWSWIRE) -- MKS Instruments, Inc. (Nasdaq:MKSI), a global provider of technologies that enable advanced processes and improve productivity, announced today that company management will participate in the 5th Annual CEO Investor Summit, to be held Wednesday, July 10, 2013 in San Francisco, California.

#### **About The 5th Annual CEO Summit**

The CEO Summit is an accredited investor and publishing research analyst event that is held concurrently with SEMICON West and Intersolar 2013 in San Francisco. The event is hosted by executive management from participating companies and will feature a "round-robin" format consisting of small group meetings, each 30 minutes in duration.

The CEO Investor Summit is by invitation only and is open to accredited investors and publishing research analysts. As space is limited, please RSVP early. Hosts reserve the right to limit attendance as necessary. Last day for registration is June 21, 2013.

While held concurrently with SEMICON West and Intersolar 2013, the event is not affiliated with either show.

#### **RSVP Contacts for 5th Annual CEO Summit 2013**

To RSVP for the CEO Summit, please contact either of the Summit's co-chairs.

#### **About MKS Instruments**

MKS Instruments, Inc. is a global provider of instruments, subsystems and process control solutions that measure, control, power, monitor and analyze critical parameters of advanced manufacturing processes to improve process performance and productivity. Our products are derived from our core competencies in pressure measurement and control, materials delivery, gas composition analysis, control and information technology, power and reactive gas generation, and vacuum technology. Our primary served markets are manufacturers of capital equipment for semiconductor devices, and for other thin film applications including flat panel displays, solar cells, light emitting diodes, data storage media, and other advanced coatings. We also leverage our technology in other markets with advanced manufacturing applications including medical equipment, pharmaceutical manufacturing, energy generation, and environmental monitoring.
