MKS Announces Release of Umetrics™ Active Dashboard

ANDOVER, Mass., Oct. 18, 2016 (GLOBE NEWSWIRE) -- MKS Instruments, Inc. (NASDAQ:MKSI), a global provider of technologies that enable advanced processes and improve productivity, today announced the release of Active Dashboard, part of the Umetrics Suite of Data Analytics Solutions.

Active Dashboard is a solution running across all devices and platforms which enables production leaders and managers to see a visual overview of the manufacturing process by continuously collecting and analyzing product and process data related to product quality. The visual analytics approach, coupled with the advanced analytics results from SIMCA-online, provides the production manager with a clear picture of the overall manufacturing process highlighting where, when, and for which products there were issues. Active Dashboard enables the highest level of productivity from existing assets while helping to control manufacturing costs and ensuring the quality of your production.
