Gerald Colella, Chief Executive Officer and President, said, "I'm very pleased with our strong financial and operational performance in 2013 and, in particular, with our strong finish to the year. The year culminated with December being the strongest month of the year, due in part to a significant first-phase semiconductor fab build-out in China. Business levels continue to be very healthy entering 2014. For the new year, we will continue to focus on exceeding customer requirements, leveraging growth in our existing and new markets, and increasing long-term shareholder value.

"Based on current business levels, we expect that sales in the first quarter of 2014 may range from \$190 to \$205 million, and at these volumes, our non-GAAP and GAAP net earnings could range from \$0.35 to \$0.48 per share."
